#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

 5. Fuel tank vent
 6. Fuel tank
 7. Spark plug
 8. Air filter
 9. Battery

- Figure 8
1. Gas cap
 2. Gas cap gasket
 3. Gas discharge plug (optional)

Operation

Filling the Fuel Tank

- Caution:** Gasoline is extremely flammable and explosive. A fire or explosion from gasoline can burn you and others.
- To prevent a static charge from igniting the gasoline, place the container and/or nozzle directly on the ground before filling, not in a vehicle or on an object.
 - Fill the tank outdoors when the engine is cold, stops, and idle.
 - Do not handle gasoline when smoking or around an open flame or spark.
 - Store gasoline in an approved fuel container, out of the reach of children.

Fill the fuel tank with fresh unleaded regular gasoline from a vehicle maintenance service station (Figure 8).
Important: To reduce evaporation, add fuel gradually to the tank all at once, making it with gasoline less than 30 days old.
