so many fake sites. this is the first one which worked! Many thanks

## HOW TO USE THIS MANUAL

This service manual describes the service procedures for the CBR150R.

Follow the Maintenance Schedule (Section 2) recommendations to ensure that the vehicle is in peak operating condition and the emission levels are within the standards.

Performing the first scheduled maintenance is very important to compensate for the initial wear that occurs during the break-in period.

Sections 1 and 2 apply to the whole motorcycle.

Section 2 describes procedures for environmental tests or conditions that may be required to perform service described in the following sections.

Sections 4 through 21 describe parts of the motorcycle, grouped according to location.

Find the section you want on this page, then turn to the table of contents on the first page of the section.

Most sections start with an assembly or system illustration, service information and troubleshooting for the section. The subsequent pages give detailed procedures.

If you don't know the source of the trouble, go to section 22 TROUBLESHOOTING.
