LOCKING/UNLOCKING THE DOORS

Manual locking

From the outside

Unlock the doors using the remote control (refer to information on the "Radio frequency remote control" use" in Section 1) or using the key in one of the door locks.

Depending on the vehicle, the key locks and unlocks the driver's door or all four doors.

From the inside (depending on vehicle)

Push in button f to lock and ll button f to unlock.

Electric central locking

Depending on the vehicle, it can be used to simultaneously lock or unlock the doors and luggage compartment. Lock or unlock the doors by pressing switch 2.

The front door mechanism cannot be locked if the door is open.

Child safety

To make it impossible for the rear doors to be opened from the inside, move lever 3 on each door and check from the inside that the doors are securely locked.

Driver's responsibility
If you decide to keep the doors locked when you are driving, remember that it may be more difficult for those assisting you to gain access to the passenger compartment in the event of an emergency.
