

Download File PDF Manual Sequencing Vs Automated

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Automated VS manual

Automated DNA sequencing has the following advantages over manual DNA sequencing

- ▶ radioactivity is not used,
- ▶ gel processing after electrophoresis and autoradiography are not needed,
- ▶ the tedious manual reading of gels is not required as data are processed in a computer,
- ▶ the sequence data is directly fed into and stored in a computer,
- ▶ the separation of the same reaction products can be repeated to recheck the results in cases of doubt since they can be stored for a long period of time, and
- ▶ it is extremely fast.
