On the left side of your iPhone, there are two small buttons that change the sound of your iPhone. Press the "minus" button to reduce the volume and "plus" button to increase it.. Right now the buttons are in the "ringer" mode, in the next step we'll show you how to make buttons control the general audio of iPhone.

Almost in the same place, is also a small rectangular switch that puts phone from "ringer" to "silent" and back.
