Marriott Hotels Standards Manual

USAGE SPECIFICATIONS

Specific clear space and minimum size requirements have been established to protect the brand identity. Adhering to these clear space, height, and minimum size requirements will ensure the identity is presented consistently and correctly.

To ensure legibility and an unobstructed presentation, always maintain clear space around the trademark. Determine the height of the M in the trademark. As a general guideline, 1/4" of the height should be kept clear on all sides of the logo.

It is important that all parts of the logo can be easily read in every application. For this reason, the logo must be used in its entirety and not be reproduced or applied in a way that is not specified. There are no maximum size restrictions as long as the clear space requirements are met.
