

#Jenny

Finally I get this ebook, thanks for all these I can get now!

---

#Rio

Cool! I'am really happy

---

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

---

#Hun Tsu

wtf this great ebook for free?!

---

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

---

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

---

Let  $r$  be the radius of a circle.

Then, circumference of a circle =  $2\pi r$

We have,

Circumference - Radius = 37 cm

$$\Rightarrow 2\pi r - r = 37$$

$$\Rightarrow r(2\pi - 1) = 37$$

$$\Rightarrow r\left(2 \times \frac{22}{7} - 1\right) = 37$$

$$\Rightarrow r\left(\frac{44}{7} - 1\right) = 37$$

$$\Rightarrow r\left(\frac{37}{7}\right) = 37$$

$$\Rightarrow r = \frac{37 \times 7}{37}$$

$$\Rightarrow r = 7 \text{ cm}$$

$$\therefore \text{Circumference of the circle} = 2\pi r = \left(2 \times \frac{22}{7} \times 7\right) \text{ cm} = 44 \text{ cm}$$
