

# Download File PDF Relion Thermometer Manual

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

- Do not use the thermometer if the display shows a low power icon.
- Do not use the thermometer if the display shows a low signal icon.
- Do not use the thermometer if the display shows a low data icon.
- Do not use the thermometer if the display shows a low status icon.
- Do not use the thermometer if the display shows a low mode icon.
- Do not use the thermometer if the display shows a low screen icon.
- Do not use the thermometer if the display shows a low touch icon.
- Do not use the thermometer if the display shows a low gesture icon.
- Do not use the thermometer if the display shows a low voice icon.
- Do not use the thermometer if the display shows a low vibration icon.
- Do not use the thermometer if the display shows a low haptic icon.
- Do not use the thermometer if the display shows a low light icon.
- Do not use the thermometer if the display shows a low sound icon.
- Do not use the thermometer if the display shows a low motion icon.
- Do not use the thermometer if the display shows a low proximity icon.
- Do not use the thermometer if the display shows a low barometer icon.
- Do not use the thermometer if the display shows a low compass icon.
- Do not use the thermometer if the display shows a low gyroscope icon.
- Do not use the thermometer if the display shows a low accelerometer icon.
- Do not use the thermometer if the display shows a low magnetometer icon.
- Do not use the thermometer if the display shows a low altimeter icon.
- Do not use the thermometer if the display shows a low chronometer icon.
- Do not use the thermometer if the display shows a low stopwatch icon.
- Do not use the thermometer if the display shows a low timer icon.
- Do not use the thermometer if the display shows a low calculator icon.
- Do not use the thermometer if the display shows a low notes icon.
- Do not use the thermometer if the display shows a low contacts icon.
- Do not use the thermometer if the display shows a low messages icon.
- Do not use the thermometer if the display shows a low calendar icon.
- Do not use the thermometer if the display shows a low photos icon.
- Do not use the thermometer if the display shows a low videos icon.
- Do not use the thermometer if the display shows a low music icon.
- Do not use the thermometer if the display shows a low apps icon.
- Do not use the thermometer if the display shows a low settings icon.
- Do not use the thermometer if the display shows a low system icon.
- Do not use the thermometer if the display shows a low network icon.
- Do not use the thermometer if the display shows a low location icon.
- Do not use the thermometer if the display shows a low security icon.
- Do not use the thermometer if the display shows a low privacy icon.
- Do not use the thermometer if the display shows a low accessibility icon.
- Do not use the thermometer if the display shows a low developer icon.
- Do not use the thermometer if the display shows a low testing icon.
- Do not use the thermometer if the display shows a low debugging icon.
- Do not use the thermometer if the display shows a low profiling icon.
- Do not use the thermometer if the display shows a low benchmarking icon.
- Do not use the thermometer if the display shows a low performance icon.
- Do not use the thermometer if the display shows a low optimization icon.
- Do not use the thermometer if the display shows a low maintenance icon.
- Do not use the thermometer if the display shows a low troubleshooting icon.
- Do not use the thermometer if the display shows a low support icon.
- Do not use the thermometer if the display shows a low help icon.
- Do not use the thermometer if the display shows a low about icon.
- Do not use the thermometer if the display shows a low settings icon.
- Do not use the thermometer if the display shows a low system icon.
- Do not use the thermometer if the display shows a low network icon.
- Do not use the thermometer if the display shows a low location icon.
- Do not use the thermometer if the display shows a low security icon.
- Do not use the thermometer if the display shows a low privacy icon.
- Do not use the thermometer if the display shows a low accessibility icon.
- Do not use the thermometer if the display shows a low developer icon.
- Do not use the thermometer if the display shows a low testing icon.
- Do not use the thermometer if the display shows a low debugging icon.
- Do not use the thermometer if the display shows a low profiling icon.
- Do not use the thermometer if the display shows a low benchmarking icon.
- Do not use the thermometer if the display shows a low performance icon.
- Do not use the thermometer if the display shows a low optimization icon.
- Do not use the thermometer if the display shows a low maintenance icon.
- Do not use the thermometer if the display shows a low troubleshooting icon.
- Do not use the thermometer if the display shows a low support icon.
- Do not use the thermometer if the display shows a low help icon.
- Do not use the thermometer if the display shows a low about icon.

**Technical Specifications:**

| Parameter             | Value         |
|-----------------------|---------------|
| Temperature Range     | -20°C to 40°C |
| Accuracy              | ±0.1°C        |
| Resolution            | 0.1°C         |
| Display               | 1.5" LCD      |
| Battery               | CR2032        |
| Power Consumption     | 100µA         |
| Operating Temperature | -20°C to 40°C |
| Storage Temperature   | -30°C to 50°C |
| Humidity              | 10% to 90% RH |
| Shock                 | 10g           |
| Vibration             | 10g           |
| EMC                   | CE            |
| RoHS                  | RoHS          |
| REACH                 | REACH         |
| WEEE                  | WEEE          |
