#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

ELECTRICAL ENGINEER

your.name@gmail.com | (000) 000-0000 | 142 Your Address Blvd, City Name, CA XXXX

[Today's Date]

[Hiring Manager's Name]
[341 Company Address]
[Company City, State xxxxx]
[000 000 0000]
[Hiring.manager@gmail.com]

Dear [Mr./Mrs./Ms.] [Manager's Name],

I am applying for the position of [POSITION] which was advertised on the [COMPANY NAME] website. I firmly believe that my education, skill-set, intensive training, and extensive experience make me a suitable candidate for this vacancy.

I am certified in Electrical/Mechanical Estimating and hold a degree in Electrical Engineering from HML College. As an individual who is interested in continuous professional development, I have dedicated more than 8 years of experience to working with blue chip companies within the electrical industry. This has resulted in professional competency in all operational and technical aspects of digital systems implementation.

Employed with McHero PLC as an Electrical Improver/Supervisor, I have demonstrated strong problem-solving skills and the ability to work in high-pressure and challenging working environments. My responsibilities varied throughout the commissioning, maintaining, installation and testing of highly sophisticated electrical systems. In addition, I was relied upon to manage vendors and execute projects and maintenance strategies within a budget of around \$90,000.

Ensuring that all activities complied with quality standards and examining installation of numerous electrical equipment, I have been able to successfully identify engineered resolutions to recurring electrical issues. Furthermore, I have gained an extensive exposure to leading teams and training members such that their competencies are in-line with the needs of the organization.

I have functional knowledge of all electrical legislation, codes, and standards of practice, and have gained expertise in use of industry specific tools and applications.

I would welcome the opportunity to meet you, and I'm sure after appraisal of my resume you will see I am an individual with excellent potential in an organization such as [COMPANY NAME].

I look forward to hearing from you in due course.

Sincerely,

[Name]
