

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Answer :

We have the following:

(i) 58 and 712

By cross multiplication, we get
 $5 \times 12 = 60$ and $7 \times 8 = 56$
However, $60 > 56$
 $\therefore 58 > 712$

(ii) 59 and 1115

By cross multiplication, we get
 $5 \times 15 = 75$ and $9 \times 11 = 99$
However, $75 < 99$
 $\therefore 59 < 1115$

(iii) 1112 and 1516

By cross multiplication, we get
 $11 \times 16 = 176$ and $12 \times 15 = 180$
However, $176 < 180$
 $\therefore 1112 < 1516$
