

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Answer:

We have the following:

$$(i) \frac{1}{3} \text{ of } 24 = 24 \times \frac{1}{3} = \frac{24}{1} \times \frac{1}{3} = \frac{24 \times 1}{1 \times 3} = 8$$

$$(ii) \frac{3}{4} \text{ of } 32 = 32 \times \frac{3}{4} = \frac{32}{1} \times \frac{3}{4} = \frac{32 \times 3}{1 \times 4} = \frac{96}{4} = 24$$

$$(iii) \frac{5}{9} \text{ of } 45 = 45 \times \frac{5}{9} = \frac{45}{1} \times \frac{5}{9} = \frac{45 \times 5}{1 \times 9} = \frac{225}{9} = 25$$

$$(iv) \frac{7}{50} \text{ of } 1000 = 1000 \times \frac{7}{50} = \frac{1000}{1} \times \frac{7}{50} = \frac{1000 \times 7}{1 \times 50} = 140$$

$$(v) \frac{3}{20} \text{ of } 1020 = 1020 \times \frac{3}{20} = \frac{1020}{1} \times \frac{3}{20} = \frac{1020 \times 3}{1 \times 20} = 153$$
