

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Answer:

A bus covers 128 km in 2 hours.

$$\text{Speed of the bus} = \frac{\text{Distance}}{\text{Time}} = \frac{128 \text{ km}}{2 \text{ hr}} = 64 \text{ km/hr}$$

A train covers 240 km in 3 hours.

$$\text{Speed of the train} = \frac{\text{Distance}}{\text{Time}} = \frac{240 \text{ km}}{3 \text{ hr}} = 80 \text{ km/hr}$$

$$\text{Ratio of their speeds} = 64:80 = \frac{64}{80} = \frac{64 \div 16}{80 \div 16} = \frac{4}{5}$$

∴ Ratio of the speeds of the bus and the train = 4:5
