

# Download File PDF Rs Aggarwal Maths Class 7 Solutions

#Jenny

Finally I get this ebook, thanks for all these I can get now!

---

#Rio

Cool! I'am really happy

---

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

---

#Hun Tsu

wtf this great ebook for free?!

---

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

---

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

---

Answer:

We can draw the bar graph by following the given steps:

Step 1 - On a graph paper, draw a horizontal line OX as x-axis and vertical line OY as y-axis.

Step 2 - Along OX, write the names of the states at the points that are taken at a uniform gap.

Step 3 - Choose the scale:

1 big division = 100 lakhs

1 small division = 10 lakhs

Step 4 - Heights of the various bars:

Bihar = 82 small divisions = 8 big divisions and 2 small divisions

Jharkhand = 27 small divisions = 2 big divisions and 7 small divisions

Uttar Pradesh = 106 small divisions = 10 big divisions and 6 small divisions

Uttarakhand = 8 small divisions

Madhya Pradesh = 60 small divisions = 6 big divisions

Chhattisgarh = 21 small divisions = 2 big divisions and 1 small division

Step 5 - Draw bars of equal width on the x-axis. The difference between the two bars should also be the same.
