Introduction to the SketchUp Interface

The SketchUp user interface is designed to be simple and easy to use. The main parts of the SketchUp user interface are the title bar, menu, toolbar, drawing area, status bar, and the view control bar.

Note - The previous image contains a screenshot of the Google SketchUp Pro application. The Google SketchUp (free) application looks the same.

Title Bar

The title bar (at the top of SketchUp) contains the standard Microsoft Windows controls (close, minimize, and maximize) on the right, and the name of the currently opened file.

A blank drawing area appears when you start SketchUp and the name of the currently opened file is "Untitled" in the title bar, indicating that you have not yet saved your work.

Menus

Menus appear below the title bar. The majority of SketchUp tools, commands, and settings are available within these menus. The menus that appear by default are: File, Edit, View, Camera, Draw, Tools, Windows, and Help.
