#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

II | IMPORTANT INFORMATION

- To reduce the risk of fire or electric shock, do not expose your SMART Board interactive whiteboard to rain or moisture.
- Use two wall-mounting brackets to install your SMART Board 685/SBD685 or 690/SBD695 interactive whiteboard. Using only one bracket could result in personal injury or product damage.
- Do not mount your SMART Board 600 or SBD600 series interactive whiteboard on a SMART Board 500 series floor stand. Using an older stand could result in personal injury or product damage. Only FS670 stands are certified for use with 660, 680 or SBD680 models.
- Do not mount a SMART Board 685, SBD685, 690 or SBD690 interactive whiteboard on a floor stand. Do not modify either your interactive whiteboard or a floor stand to make them compatible. Using a large interactive whiteboard with a small stand creates a tipping hazard.
- Do not mount the optional USB Audio System speakers on a SMART Board 640 interactive whiteboard mounted on an FS640 stand. Using the speakers with the small stand creates a tipping hazard.
- Move your floor stand-mounted SMART Board interactive whiteboard with care. Before moving your floor stand-mounted interactive whiteboard, lower your interactive whiteboard to Position 2, and then proceed with care. Quick stops, excessive force and uneven surfaces might cause your interactive whiteboard to overturn. Before moving a floor stand, make sure that the anti-tip feet are retracted or locked in the up position.
- Do not stand (or allow children to stand) on a chair to touch the surface of your SMART Board interactive whiteboard. Instead, remount the product at the appropriate height, or use a SMART height-adjustable floor stand.
- Do not climb (or allow children to climb) on your wall- or floor stand-mounted SMART Board interactive whiteboard. Climbing on your interactive whiteboard or projector boom, or riding on your floor stand, could result in personal injury or product damage. 
- There are no user-serviceable parts inside the pen tray. Only qualified personnel should disassemble the pen tray's printed circuit boards, and this procedure must be done with proper electrostatic discharge (ESD) protection.
- If you are using an RS-232 serial expansion module, a wireless Bluetooth connection expansion module or a USB audio system, use only the power supply included with that product. These products do not use the same power supplies. Using the wrong power supply might create a safety hazard or damage the equipment. If in doubt, refer to the specification sheet for your product to verify the power supply type.
