#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Upgrading SoftDent on a Server—Maintenance Release

Important: Back up data and shut down the FairCom Server before upgrading the software.

To upgrade SoftDent on a server, follow these steps:

1 Close SoftDent on the server and all other computers on the network. Verify that all other programs on the server are closed and insert the CS SoftDent DVD in the DVD drive on the server. The **SoftDent Installation** window is displayed.

OR

If you are upgrading a server running Windows 7 or later, the **Autoplay** window is displayed.

- Click **Run InstallMenu.exe**. The **User Account Control** window is displayed.
- Click **Yes**. The **SoftDent Installation** window is displayed.

2 Select **Install SoftDent v15.0**. The **Carestream Application Suite - InstallShield Wizard Welcome** window is displayed.

3 Click **Next**. A number of progress windows are displayed as the software is updated.

4 When the upgrade is completed, the **Update Complete** window is displayed. Click **Finish**.

5 Click **Exit**.

Important: Restart the server after upgrading the software.
