Chapter 18 - Governmental Entities: Special Funds and Government-Wide Financial Statements

## CHAPTER 18 GOVERNMENTAL ENTITIES: SPECIAL FUNDS AND GOVERNMENT-WIDE FINANCIAL STATEMENTS

### ANSWERS TO QUESTIONS

**Q18-1** A governmental entity would use a special revenue fund rather than a general fund when the resources earmarked for the fund, such as federal or state government grants or special tax levies, are restricted for specific purposes.

**Q18-2** Operating budgets are prepared for the general fund, special revenue funds, and debt service fund. Capital budgets are prepared for the capital projects fund.

**Q18-3** Interest on long-term debt is accrued for in the debt service fund for only the interest that is due and legally payable as an expenditure. Interest is not accrued on the outstanding balance of the long-term debt.

**Q18-4** The major differences between a special revenue fund and an enterprise fund are

	Special Revenue Fund	Enterprise Fund
Measurement focus	Current financial resources	Economic resources
Accounting basis	Modified accrual	Accrual
Budgetary basis	Operating budget	None required
Long-term assets	No	Yes
Long-term debt	No	Yes
Encumbrances	Yes	No
Financial statements	Governmental type	Commercial type

**Q18-5** The basis of accounting used in the proprietary funds is the accrual basis because the focus of the governmental entity is on capital maintenance and income determination rather than budgetary spending authority.

**Q18-6** The financial statements that must be prepared for the governmental funds are the balance sheet and the statement of revenues, expenditures, and changes in fund balances. The financial statements that must be prepared for the enterprise funds are the statement of net assets, the statement of revenues, expenses, and changes in fund net assets, and the statement of cash flows.
