## Chapter 2: Examining Relationships

2.1 (a) The cases are employees. (b) The label could be the employee's name or ID. (c) Answers will vary. (d) The explanatory variable is how much sleep they get; the response is how effectively they work.

2.2 (a) The cases are the individual orders; the variables are the size and the price. (b) The size is the explanatory variable; it explains the price. Price is the response. (c) The cases are the individual orders; the variables are the amount and the price. Amount is the explanatory variable and price is the response.

2.3 State is the label; all other variables are quantitative.

2.4 (a)
